REVIEW AND AWARDS SUPPLEMENT

Hwange Colliery wins mining sustainability award

HWANGE Colliery Company Limited (HCCL) is a listed coal mining company in Zimbabwe. It is primarily listed on the Zimbabwe Stock Exchange with secondary listings on the Johannesburg Stock Exchange and the London Stock Exchange. Its principal activities are the exploration, mining and processing of coal and the production of coke and its related by-products.

HCCL is situated in the north western part of Zimbabwe, Hwange District in the Matabeleland North Province. The company is ISO 9001:2008 certified by the Standards Association of Zimbabwe (SAZ).

The company began operating in 1902 following a successful sinking of the now disused No.1 Colliery shaft

Over the years, the organisation has, through some engineering designs and re-designs, increased and improved on the range of products it sends to the market. These now include thermal, industrial, coking coal, coke and by products such as benzole and tar.

Hwange Colliery products

The company's coal products are marketed in three broad

Distinct categories

- 1. Power Coal also known as power coal 0.5-+40mm
 - 2. Industrial Coal (HIC) 3. Coking Coal

Our grades

- (i) Washed peas 10-30mm (ii) Large Cobbles +50-100mm (iii) Rounds +100-152mm
- (iv) Coal nuts 30-40mm
- (v) Nut Pea Duff +0.5-40mm (vi) Duff +0.5-6.7
- (vii) Coal fines 0-4.7mm
- (viii) Coking Coal 0-50mm

Coke

Coke is marketed as follows;-Foundry coke (+80mm) Metallurgical coke (+40-80mm

Coke Breeze (-10mm) Coke nuts (30—50mm

products is based on customer specifications, HCCL internal standards, benchmarked against world class standards and statutory require-

Currently, the company is deeply engaged in a turnaround strategy anchored on increased production and has been given a new lease of life through the Scheme of Arrange-

An accelerated drive to walk the talk has witnessed production peak in the third quarter of 2017 due to a rapid results and asset management programme.

Production shifted from an average of 30 000 tonnes in the first quarter to 300 000 tonnes in July 2017.

The positive developments are being further given impetus by the resuscitation of underground mining operations set to commence in the last quarter of the year. In mid-August, the company took delivery of one of the key underground mining equipment, the continuous miner machine which had gone for refurbishment in South Africa.

Underground mine mainly produces coking coal which is high value

The coming up of underground mining will increase our volumes from the projected 400 000 tonnes to 450 000 tonnes per month with the ultimate target to produce half a million tonnes very month.

Hwange Colliery is finalising the takeover of the Hwange Coal Gasification Company coke oven battery which will enable it to generate more export revenues. Currently the international price of coke is very attrac-

Established in 1902, Hwange Colliery is committed to reliably supplying coal to the energy sector, manufacturing industry and tobacco sector of the finest grade, at the most affordable prices and aim to see that commitment for another 100 years

ARE you a tobacco farmer? Now is the time to pick up your coal and say no to

deforestation! Avoid the rush that comes with the rainy sea-

Avoid rainfall inconveniences, purchase your coal now!

ONE of our themes at the Hwange Colliery Company Limited's Harare agriculture show exhibition stand was "No to deforestation, environmentally conscious farmers use Hwange coal and save forests."

Hwange Colliery Company Limited managing director Eng Thomas Makore expanding on the theme says, environmentally conscious farmers use Hwange Coal for tobacco curing, chicken rearing, maize drying and crocodile farming so as to save the forests.

He said the coal mining giant discourages the use of firewood in farming as it is depleting the forests which are vital to our survival and ecosystem.

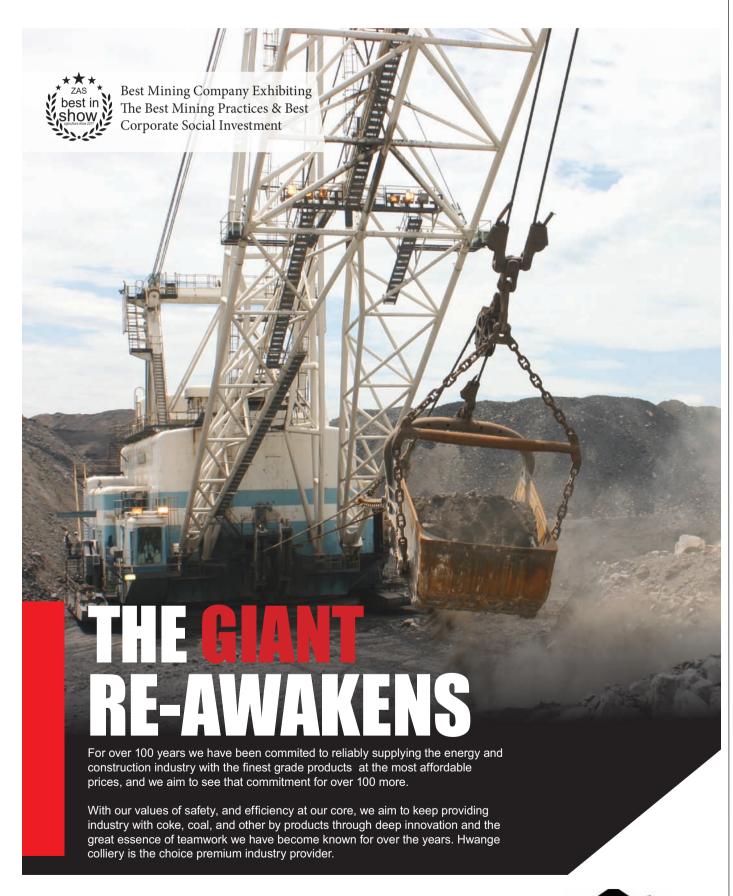

Engineer Makore says: "If the

country does not take steps now, it will be left with no forests considering that wood provides about 95 percent of all energy needs of non-commercial farm-

According to statistics every year Zimbabwe is losing tree cov-

er equivalent to three times the size of Harare or 300 00 hectares per year, the Forestry Commission of Zimbabwe (FCZ) revealed.

Hwange Colliery in the community

Medical outreaches

THE local rural Hwange communities far from hospitals and other health centres benefit immensely from the medical outreach programmes being undertaken by the organisation's medical services division.

A team of specialists' namely dental, community nursing, physiotherapy, pharmacy, nursing services, opportunistic infections and health services offer medical care at in Kasibo, Matetsi and other surrounding rural vicinities.

Fire and rescue services

The team responds to emergencies in the concession, Hwange District and provides support to vast stretches of areas in Matabeleland North province.

Timely intervention of HCCL Fire and Rescue team saved OK Supermarket from being gutted by a fire on May 16, 2015.

Jairos Jiri Centre coal donations

Hwange Colliery Company Limited (HCCL) donates coal to Jairos Jiri Vocational Training Centre in Nguboyenja, Bulawayo as part of its corporate social responsibility (CSR) initiatives. The partnership dates back to the early 1970s. The annual dry cobbles donation continues to benefit the lives of less privileged youth and the disabled.

HAS recognises Klein Karoo Seed Marketing

THE leader in yield Klein Karoo Seed Marketing Zimbabwe (K2) was recently honoured at the 107th edition of the Harare Agricultural Show (HAS) where the company walked away with the Best First Commercial Exhibit in any Sector award.

K2 is the single seed company with the widest crop basket in Zimbabwe, it offers a wide variety of grains, vegetables, flowers and pastures seeds and is internationally recognised by seed industry leaders.

Klein Karoo Seed Marketing Zimbabwe is continuously launching new products to ensure that the company is at the forefront of agronomic developments and climate change. New technologies in the company maize crop basket include, drought tolerance, low nitrogen use efficiency, stay green characteristics and the mother of all, for irrigation, farmers, is high plant population maize with yield potential of over 20 metric tonnes per hectare.

The Harare Agricultural Show was officially opened by President Robert Mugabe, with a number of new sections being introduced as the annual event continues to grow.

In his opening remarks, president of the Zimbabwe Agricultural Society, Ngoni Kudenga, said this year's event had grown from the previous year's, with the introduction of two new sections.

"We have the traditional sections that include livestock, home industry, agriculture produce and tobacco and in addition to that we have added the cotton section.

"In addition to that we have a new section called the 11 tonne Plus Club where over 80 farmers have volunteered to have their maize crop assessed to see if they can harvest at least 11 tonnes per hectare.

"To date, over 35 have passed, with the highest yield being 21 tonnes per hectare."

Kudenga said there was also a Miners Club, with a schools day where there were competitions and essay writing and quizzes for school children.

The annual Harare Agricultural Show is the premier event organised by the Zimbabwe Agricultural Society for the national facilitation and promotion of agricultural development in Zimbabwo
